Art Unit: 1623

Claims 75 and 83 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement for the reasons set forth in the Office action of December 8, 2005.

Applicant's arguments filed March 2, 2006 have been fully considered but they are not persuasive.

Applicant contends that paragraph [0018] of the specification provides support for claim 75. Said paragraph has been considered. While it provides support for the terminology "at least about 4 to 10mg dalbavancin", it fails to provide support for the terminology "at least two weeks following the first dose".

Applicant contends that Table 9 provides support for claim 83. The table has been considered. While it provides support for the terminology "19844 mg-h/L", it fails to provide support for the terminology "at least about 19844 mg-h/L". Note that the terminology "at least about" fails to provide an upper limit.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
